PROFESSIONAL SUMMARY

Textile Design undergraduate at the Textile Institute of Pakistan with a strong foundation in fashion illustration, pattern design, and sustainable material innovation. Skilled in Adobe Photoshop and Illustrator with hands-on project experience across concept development, surface design, and bioplastic research. Seeking to contribute creative and technical skills to the textile and fashion industry.

SKILLS

- Design:** Fashion Illustration, Textile Pattern Design, Concept Development, Color Theory
- Software:** Adobe Photoshop, Adobe Illustrator
- Industry:** Apparel Manufacturing, Trend Forecasting, Sustainable Material Development
- Languages:** Sindhi (Native), Urdu (Fluent), English (Intermediate), Turkish (Intermediate)

EXPERIENCE

Event Volunteer — Textile Institute of Pakistan

2024 – 2026

Karachi, Pakistan

- Convocation Ceremony 2026 — Managed guest coordination, décor, and on-ground logistics for the graduating batch's farewell ceremony.
- Qawali Night — Supported venue setup, stage coordination, and crowd management for the annual cultural event.
- IBA Collaboration Event — Facilitated inter-institutional event operations with the Institute of Business Administration, gaining cross-campus coordination experience.

PROJECTS

Bioplastic Sustainable Packaging from Citrus Fruit Waste

2025

Sustainability Research · Biopolymer Development · Circular Economy

- Developed a biodegradable packaging prototype from orange and lemon peel waste by extracting pectin-based biopolymers as plastic alternatives, targeting sustainability in the textile supply chain.

Titanic × Cruella — Fashion Illustration Series

2024

Adobe Illustrator · Adobe Photoshop · Concept Development

- Created a narrative-driven collection merging Titanic-era luxury silhouettes with Cruella's dramatic aesthetic through structured forms, monochromatic contrast, and character-driven styling.

Dragon Theme — Fantasy Textile Illustration

2024

Textile Pattern Design · Adobe Photoshop · Surface Design

- Designed a fantasy-inspired textile collection built on scale-like motifs and bold textures, translating organic creature patterns into print-ready wearable fashion concepts.

University-Inspired Architectural Textile Patterns

2024

Repeat Pattern Design · Adobe Illustrator · Geometric Design

- Developed a repeat-pattern collection translating campus architectural geometry into cohesive textile surface designs for apparel and home textile applications.

EDUCATION

Bachelor of Textile Design

2024 – 2028

Textile Institute of Pakistan, Karachi

- Core Areas: Textile Designing · Apparel Manufacturing · Fashion Designing · Textile Technology
